

X-Lift

Ergonomic Design

The machine design for improved ergonomic condition to ensure the health, safety and comfort of the operator together improved productivities

No floor pit requirement

Thank for the machine designed with very low minimum high at 250/300 mm.(Model:X1000/X3000) that make flexibility location and improved productivity with higher stack of work piece.

Optional

1. Fork-Lift Slot Loader
2. Extra size Table
3. Top Roller Table
4. Fence guard

Model	X1000	X3000	Unit
Capacity	1000	3000	kg.
Table size	800x1500	1300x2500	mm.
Max./Min. Height	900/250	1500/300	mm.
No. of Cylinders	1	2	Cylinders
Hydraulic Cylinders Diameter	80	100	mm.
Hydraulic Oil tank	12	35	Liter
Motor Power	1	3	Hp.
Machine Weight	350	1100	kg.
Type of Power Unit	Build in	Separate	type
